A farmer living in Ohio county has an elegantly laid-out farm. His house is laid off exactly north and south, and he scarcely needs a clock to tell him when it is noon, for the sun mark inside the door is always sure. Almost everybody have money laid up to spend this Christmas time, mostly because it is a time of good feeling and rejoicing, and a kind of liberal feeling comes over a person, that is proverbial in its extent. The amount is so small you will hardly miss it, and you will reap the benefit the whole year to come.

News comes from a painful accident that told a lady living in the county, which might have resulted in something more horrible, but for timely interference. Last Friday Mrs. Virgie Miller, daughter of Wm. Ford, of Ellis, presented, had her dress to catch on fire while standing in a gate, and in her frantic efforts to smother out the flames, burned her hands terribly. She ran to some woman near in the house, and implored her to throw the tinf of water she was using over her, but the lady with more forethought, quickly threw one of the soaking articles she was washing around the burning woman, completely dousing out the fire, and in this way averted a horrible calamity and perhaps saved her life.

A Horrible Accident.

On the 21st ult., at Rochester, Ky., a six-year-old son of Mr. E. Tamm, met with a terrible accident that cost him his life. He was standing near a fire in the house, when his clothing became ignited, and, as is generally the case, in his excitement and fright, started to run, only fanning the flames to fiercer heat. He started out and around the house, when his little brother, thirteen years old, saw him and gave chase, and in a few minutes caught him. With rare presence of mind and evincing a thoughtfulness worthy of a much older person, he jerked his own coat off and threw it over his burning brother, thus smothered the fire out. The mother witnessed the whole horrible sight, but could only stand and scream, seeming transfixed in her wild fright. It all transpired in a few minutes, but the three, consuming blaze did its terrible work, and the little fellow died the next day in horrible agony. Such a calamity is terrible even to hear of, but when the victim is one of the youngest and dearest children of a family, the deep sorrow at the parents can better be imagined than felt.
